

I listen to K-LOVE every day. It's where I get my national news, and the music it plays keeps me encouraged and motivated every day. Through the station, they let people know about the free pastoral counseling and referrals they provide to people who are troubled or suicidal. There is no other station like K-LOVE. It would leave a huge hole if it were replaced by an LPFM station. K-LOVE is pro-family and pro-America. Please don't take it away!
